Hi Jon,

Consistent with our treatment of other districts that may experience “closings deemed by the board to be necessary for the health, safety, or welfare of pupils”, we can work with districts to confirm how much under the instructional hour requirements the district is and then ask the district to determine if there are reasonable adjustments they can make to their calendar/bell schedule to come into compliance with the required hours. If that is not possible (which could be the case this late in the school year), the district can request a waiver. This is done by submitting a letter to the Commissioner. We would then respond with an approved waiver to the district.

As for graduation, the graduation requirements is a local board decision and therefore there is no impact which would involve CDE.

Let me know if you have any other questions.

Jeremy

Subject: contact days/Strike

Hi Jeremy

I have a few questions related to a proposed teachers strike in Pueblo .

If the strike continues for several days, wouldn't that require make up days at some point in order to fulfill the required student contact days?

Could a strike lasting several days, or even a week, potentially affect graduation ceremonies in June? I would imagine that seniors would have to have a certain amount of hours in pocket before they can get the diploma. As always, thanks for the help

Jon Pompia, Pueblo Chieftain
